

Cultivating Care Collaboration, Everywhere

At Bamboo Health, we connect payers and providers across all 50 states in one of the most interoperable care coordination networks in the nation. We also help to advance whole person care by delivering real-time patient data and analytics around behavioral and physical health.

Solutions

BEHAVIORAL HEALTH CAPACITY & REFERRAL

Create trusted, coordinated treatment networks and digital processes to expedite the path to care.

OpenBeds – Referral and capacity management platform that tracks behavioral health providers and resources in a single, connected network

Crisis Management System – Mobile crisis management that expedites access to treatment

Treatment Connection – A public-facing assessment and referral site for substance use or mental health treatment

CARE COORDINATION

Connect disconnected members of care teams with relevant patient information to foster collaboration and improve outcomes.

Pings – Real-time notifications when patients experience care events

Route – Secure, compliant processing of patient event notifications

Stories – Relevant patient context at the right time, to the right user

Callouts – A digital channel to share contextual patient/member information

Spotlights – Interactive dashboard of a healthcare organization's performance metrics

PRESCRIPTION DRUG MONITORING

Access PDMP data in clinical workflows to comply with state laws, save time, and make more informed prescribing and dispensing decisions.

NarxCare – Risk-scoring application to help prescribers and dispensers make informed decisions

PMP Gateway – The solution that integrates PDMP data directly in clinical workflows

PMP AWAReE – The nation's most popular PDMP product, used by 40+ states and territories

Who We Help

Benefits

- 🌀 Easier, faster communication between payers & providers
- 🌀 Rapid referral pathways to behavioral health
- 🌀 Improved transitions of care
- 🌀 Improved adherence to treatment plans
- 🌀 Maximized value-based care performance
- 🌀 Better outcomes by helping to prevent overdoses
- 🌀 Compliance with PDMP & CoP regulations

“Bamboo is known for its resilience and ability to grow quickly. Those same qualities describe our company’s ability to adapt and expand quickly to support a rapidly evolving healthcare landscape. We’re giving providers a full view of their patient’s physical and behavioral health, transforming whole person care and improving outcomes.”
