

What If Every Pivotal Moment in Healthcare Were Seamlessly Connected?

Every day, pivotal moments—like a hospital discharge or crisis call—can shape a person’s health journey. Yet, too often, these moments are disconnected, putting patients at risk and driving **\$45 billion annually** in wasted spending.

At Bamboo Health, we connect the dots between physical and behavioral health during pivotal care moments:

- Admission, discharge and transfers
- Crisis lifeline calls
- Pharmacy pick-ups
- Transitions in care
- And more

With Real-Time Care Intelligence™ and the nation’s most powerful care collaboration network, we help care teams and health plans across the country deliver seamless, high-quality, cost-effective whole-person care.

We make healthcare more connected, proactive and effective — one **pivotal care moment** at a time.
